

## TeleRadiology Services at SGPGIMS

This is for those doctors who require a second opinion on images. Since limited information will be available to the Radiologist at SGPGIMS, at best only an opinion can be given by us and should not be taken as a formal report.

**Time: 9.30 AM to 5 PM weekdays; 9.30 am to 1.00 PM on Saturday**

**Please contact before sending the images.**

Mode of Contact:

**Telephone:** 0522 249 4589

**Whats app Number:** 8004968594

**Email:** radiologyopdsoggims@gmail.com

Images are to be sent preferably in DICOM format, as other formats do not convey high quality images.

CT and MRI images can be copied on to a CD and sent to email mentioned above using an email account. JPEG or other equivalent formats may be used to send Radiographs and some ultrasound images.

However, it should be understood that the ultrasound images are operator dependent and may be very difficult to give opinion on.

Obstetrical USG images should not be sent for opinion to Radiology.

Since downloading these images may take some time, followed by interpretation and analysis, 2-3 hours may be required before an opinion can be given.
